

A DP WORLD Company

# LIFTING GEARS & EQUIPMENT INSPECTION SERVICES

Drydocks World Dubai a premier shipyard in the region with over 35 years of experience in the maritime and oil & gas industries offers Certification of Lifting Gears and Equipment. The independent inspection body is accredited under Emirates International Accreditation Centre (EIAC) and has been exclusively established to provide ISO 17020 Type A and Type B inspection services.

Comprised of a technically competent inspection team with vast experience in providing inspection services at onshore and offshore locations, the team performs inspections in line with international standards, codes and regulations. Our inspectors are also qualified by the Lifting Equipment Engineers Association (LEEA) to perform thorough Visual Examinations and Load Testing.
